## HCS2010-63

*Thermocouple is used extensively in autoclaves for the aircraft composite industry.*

The HCS2010-63 Autoclave Thermocouple is designed to save you time and money, while providing accuracy, dependability, reliability, and compliance.

- Rated for temperatures up to 500°F (260°C)
- Ready to use assemblies save setup time and reduce downtime
- Applications: aerospace composites, autoclaves
- Rugged cables bridge the long runs between thermocouples and instrumentation or jack panels

0.375" TWISTED AND WELDED JUNCTION

### FEATURES:

0.375" twisted and welded junction

30 ft. cable

Molded plug

28 AWG with standard size plug

Complies with BAC 5621 requirements
